PROFESSIONAL SUMMARY

Frontend Developer specializing in React and modern JavaScript with experience building responsive, scalable web applications and analytics dashboards. Skilled in reusable component design, real-time notifications, and RBAC-based secure access systems.

TECHNICAL SKILLS

Frontend

JavaScript, TypeScript, HTML5, CSS3, Responsive Web Design

Frameworks & Libraries

React.js, Redux Toolkit, Material UI, Tailwind CSS,

Other

Node.js, MongoDB (Basic), Git, Python (Basic)

SOFT SKILLS

- Adaptability
- Quick Learner

EDUCATION

Full Stack Web Development

Masai School, Bangalore

04/2024 – 12/2024

Bangalore

B.Tech in Mechanical Engineering

Pranveer Singh Institute of Technology, Kanpur

08/2016 – 10/2020

Kanpur

PROJECTS

SaaS Analytics Dashboard 🔗

- Built a full-stack SaaS dashboard using **React**, **TypeScript**, **Node.js**, **Express**, and **MongoDB** with real-time KPIs and interactive charts.
- Implemented **JWT** authentication and **Redux Toolkit** for secure and scalable state management.

Job Portal 🔗

- Built a full-stack job portal using **React**, **Redux Toolkit**, **Tailwind CSS**, **Node.js**, **Express**, and **MongoDB** with a responsive modern UI.
- Implemented state management, **RESTful APIs**, and authentication features for a seamless user experience.

PROFESSIONAL EXPERIENCE

Frontend Developer

Pepsales Al

01/2025 – 02/2026

Bengaluru

- Built a **client onboarding web application** using **React** and **modern JavaScript**, enabling companies to manage users with **role-based access** and **protected routes**
- Implemented **real-time notifications** using **Pusher**, improving visibility of system events and updates.
- Designed and enforced **Role-Based Access Control (RBAC)** to secure features and UI based on user roles.
- Created **reusable, component-driven UI architecture**, improving code maintainability and development efficiency.
- Collaborated with backend APIs and handled **loading, error, and edge states** in the UI.
